Currently Learning Data science & Analytics with strong Passion

SUMMARY

I am currently pursuing a degree in Computer Science Engineering and am eager to embark on my journey in software development. With a foundation in HTML, CSS, JavaScript, Node.js, Express, and MySQL, I am also expanding my skills by learning React. My academic background has equipped me with a strong technical base, and I am committed to continuous learning to stay ahead in the field.

Proficient in Python, SQL, and data visualization tools. Strong communicator with a passion for translating data into actionable insights. I am enthusiastic about collaborating with professionals and contributing to innovative projects. Seeking opportunities to gain hands-on experience, I am confident that my dedication, passion for learning, and adaptability will enable me to make a meaningful impact in any team.
